**Trinity™ Scent Control Technology** For over 10 years Robinson Outdoor products has worked to develop Trinity™ Technology, the new pinnacle in human scent control. Trinity Technology is designed around a cutting edge synthetic polymer that was specifically created to adsorb human odor. With a huge surface area and more adsorptive kinetics, Trinity Technology will surpass the old industry standard of scent control and set the bar at a whole new level. With clothing, liquids, detergent and spray; Trinity will have a product available for everyone's budget and needs. Simply put- this technology is amazing and available nowhere else.
